

## NEROX WATER FILTER NO MORE BACTERIA

### The Opportunity

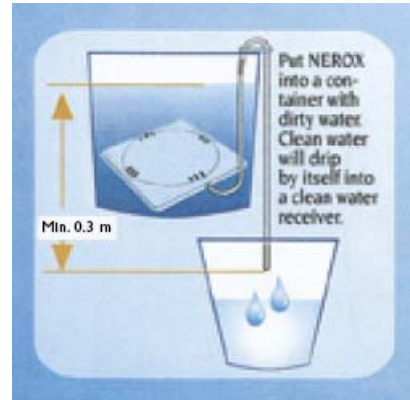

NEROX has developed a revolutionary filtration technology that dramatically reduces bacteria in water from virtually *any* fresh water source. The Nerox is an easy-to-use gravitational filtration system with the portability to be used almost anywhere. Simply pour contaminated water into a water container, place the filter in the water, and gravity does the rest. No electricity or power is required, nor attachment to a tap. The Nerox filter is the most economical portable filter in the marketplace. One can enjoy the health benefits of Nerox at home, take it on the roughest road, or put it to work in a disaster area.

### Technology

Nerox is a gravity filter. Its operation is based on a unique type of membrane developed by Nerox, a polymeric film with a high density of microscopic pores. The membrane structure features a highly uniform pore size, high strength, and longevity by means of membrane cleaning. Independent tests demonstrated that the membranes will filter 100% of the bacteria

in the water, making the membrane a great complement to existing filters. Absolutely no chemicals are used in the filtering process, and

the membrane can be cleaned and re-used over and over. A single filter can process up to 2,500 liters.

### Applications

Applications for this invention are countless. Install it in the kitchen and let it work around the clock. Bring it into any area with poor water quality, city or rural. Put it to the test after a flood, earthquake or any disaster situation. In most situations, the Nerox will make it as safe as the best bottled water on the market. Just place Nerox into any container with dirty water. Perfectly healthy water will drip by itself into a clean water receiver. The Nerox is very effective in clearing your water and reducing turbidity and color.

### Intellectual Property

The invention is protected by US Patent No. 6,312,609.

### For More Information

The Company is seeking qualified licensees to bring its innovative new technology into commercial use.

# INTRODUCING NEROX 02 WATER FILTER

## FINALLY SAFE WATER

*The first simple system that removes bacteria from even the worst water.*

***Filter technology has reached the 21. century.***

*The chart on the next page from independent laboratories speaks for itself: No more bacteria.*

*The same tests demonstrate that normal filter capacity is 15-25 liters per day and the total capacity of the filtering system up to 2500 liters.*

**nerox**  
FILTER TECHNOLOGY

<b>Test results from independent laboratories:</b>					
Type of pollution	Reduced concentration	Type of pollution	Reduced concentration	Type of pollution	Reduced concentration
<b>Bacteria</b>		<b>Metals*</b>		<b>Pesticides*</b>	
Coliforms, fecal coliforms	100%	Iron	80-100%	Aldrin	70%
Salmonella, Giardia	100%	Lead	90-100%	Lindan	90-100%
Colera pathogens	100%	Copper	60-70%	p,p-DDE,p,p-DDD	90-100%
Plague pathogens	100%	Aluminium	90-100%	p,p-DDT	75%
Algae protozoa	100%	Manganese	70-80%	MCPA	70%
		Zinc	90-100%	2,4-D	90%
		Arsenic	90-100%	Dichlorprop	55%
				Mecoprop	30%

\* Test results concerning metals and pesticides may vary depending on the quality of the water.

**No more waterborne diseases. The unique Nerox membrane keeps your family healthy and safe.**

The new Nerox 02 filter is a portable microfiltration device which effectively cleans water from any sweet water source.

**Here is how it works.**

The Nerox 02 is a gravity filter, the operation on which is based on a unique type of Nerox-membrane, a polymeric film with a high density of microscopic pores. The membrane structure features a high uniformity of the pore size, high strength and the longevity by means of membrane cleaning.

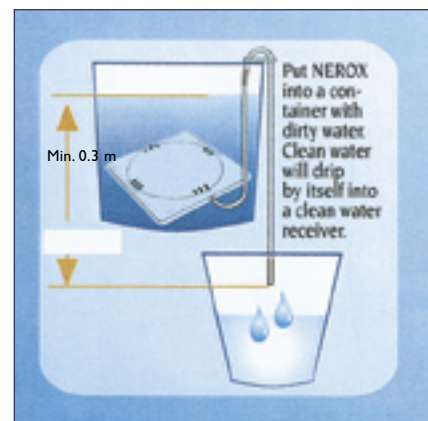

The Nerox 02 filter, thanks to its 0.4 micron pore size, can remove all fecal and colibacteria, giardia, cryptosporidium and cysts.

The Nerox 02 is easy to use. Simply pour contaminated water into a water container, place the filter in the water and gravity does the rest. No electricity or power is required and no attachment to a tap either.

**Enjoy the health benefits of Nerox 02 in your home. Take it on the roughest road or put it to work in a disaster area.**

- Install it in the kitchen and let it work around the clock.
- Bring it into any area, rural or city, with poor water quality.
- Put it to the test after a flood, earthquake or any disaster situation.

Whatever the raw water quality, the Nerox 02 will make it as safe as the best bottled water on the market. Just put Nerox 02 into any container with dirty water. Perfectly healthy water will drip by itself into a clean water receiver.

**Some of the unique features and advantages.**

- The Nerox 02 is portable, small size and compact filter, which is easy to take with you anywhere.
- The Nerox 02 is suitable for filtering contaminated tap water as well as water taken from wells, lakes, rivers or rain water.
- The Nerox 02 is reliable; no breakable or moving parts.
- The Nerox 02 is the most economical portable filter in the marketplace.
- No chemicals are used in the filtering process.
- Effective in clearing your water, reducing turbidity and colour.
